## Comments about [Live In Dodger - Los Angeles USA - Violation Tour 1990](#) - Depeche Mode

Fomand

This soundboard audio is sourced from an NTSC VHS tape of unknown generation. The master tape was taped by the Dodgers Stadium crew. This audio is unmixed, which is why it may sound "odd". The last five tracks are from another soundboard from 1990-07-21 Shoreline Amphitheatre. However, all circulating copies of the soundboard audio from that concert are LOSSY. It is unknown why the last five tracks from this bootleg are from that concert rather than from Dodgers Stadium. They are probably still lossy, too.

any idea if the vhs will surface one day? you wouldnt happen to know anyone with the master copy....lol
