## Notes

The entire album was created at Soundmind Studio in Seattle Washington in 2015 & 2016 by Nickels Hawkeye, Chris Reeves, Doulos the Verbose and Ben Kersten for Soundmind Artists. There are essentially no samples that aren't in the public domain. Every track was created by playing the

instruments ourselves. The drums on "This Is Not Ben's" were taken from Billy Jean by Michael Jackson and the scratches on that same song are the ONLY instances of any samples.
